A close-up photograph of a car engine. A black and white braided cable is connected to a sensor or actuator on the engine. The cable has a black plastic connector at the end. The engine components are metallic and show signs of wear.

A close-up photograph of the rear section of a motorcycle. The image shows the black seat, the rear fender, and the rear wheel with a multi-spoke rim. The engine and exhaust components are visible below the seat.

A close-up photograph of the back of a handheld electronic device, likely a GPS or surveying instrument. The device is black with a silver-colored metal plate on the back. On this plate, there is a label that reads 'RECEIVED' in a stylized font. A white arrow points to this label. Below the label, there are two circular ports with white caps. The device is connected to a black cable.
